FOREWORD

Since "Morgan's Official Street Directory" was first issued in 1916 consistent efforts have been made each year to publish a Directory worthy of our progressive and expanding Metropolis.

The demand from all sections of the community for this publication has increased steadily each year, showing that the Directory is providing valuable service to the public. The appreciation shown by users, and comments of overseas visitors, have been most gratifying to the publishers, and every effort will be made to maintain and improve the present high standard of the maps and street index information.

For those who are unacquainted with the methods employed in obtaining information in the shortest possible time particulars are shown on pages 5 and 6.

While every care is taken in compiling this Directory, the publishers accept no responsibility for any error or omission, as it is possible that a limited number of street names may have been changed, but not officially notified in time for publication. We are always glad to hear of any amendments or additions that may be desirable.

The publication, and all contents, have been fully protected by copyrights, and copyists are warned that insertions are made enabling the Publishers to readily identify any Morgan Map. The Publishers will issue legal proceedings, if necessary, in order to protect their rights.

Morgan's new combined two-sided Map of the City of Melbourne and Main Roads of the metropolitan area is now on sale, and can be purchased at all booksellers for 2/-.
